### References received as Trainer:

- "I was pleasantly surprised to find that Andrei Balint is one of the few trainers I can say he demonstrated, he understands the topic he is talking about, and not only the theoretical part but also the practical implications in organisations with high complexity. I have a few years of experience in the field, the training provided by Andrei has brought added value to the highest quality. ", Ștefan Iancu - iPrivacy.ro
- "Intelligent, professional, with a broad view on the protection of personal data and information security in general." As a trainer he manages to capture and transmit the essentials, empathic and communicative with the audience, a true specialist.", Mihai Danțiș - ELO Digital
- "I met Andrei as a trainer at the GDPR course, the IAPP version. I expected a long, four-day theoretical presentation. With the first slide, the question came to the class - what do you think about the subject? the rest of the pages were discussed from all possible angles, dotted with examples prepared for the object, unrelated to a particular industry and turned the presentation into an open debate. Andrei paid special attention to the issues raised by each student while preserving the thread of the presentation. ", Dragoș Teodorescu - Comparex Romania

### Projects:

Created and implemented a GDPR compliance project at a pharmaceutical company in Romania-(June-August.2018)

Created and implemented a GDPR compliance project at an oil and gas company in Romania-(July-September 2018)

Created and implemented a GDPR compliance project at a company in Romania which was specialized in construction materials(May-July 2018)
